Benefits & Features

Perfect for Home Use

- Operates at ≤ 50.5 dBA, helping minimize disruption during sleep, conversations, and daily activities.
- A space-efficient design with smooth-rolling caster wheels makes it easy to reposition from room to room as needed.
- Engineered for use in home and healthcare settings.
- Maintains oxygen concentration performance at altitudes up to 6,000 feet, making it suitable for use in many geographic regions.

Dependable Design

- Provides continuous oxygen flow from 0.5 to 5 liters per minute with a stable oxygen concentration of $93\% \pm 3\%$, supporting prescribed supplemental oxygen needs throughout the day and night.
- The integrated compressor is designed for efficient operation, minimizing noise levels while reducing strain on the unit.

Simple Maintenance, Lower Cost of Ownership

- Reduces maintenance complexity for providers and users with accessible cabinet filters that support simple, regular cleaning and internal filters designed for long service intervals.
